INTRODUCTION

0001 Name and Legal Status

The legal name of the School District is the Gibraltar School District. The School District is a general powers school district within the meaning of the Michigan Revised School Code (RSC), MCL 380.1 *et seq.*

0002 The Board of Education

The School District is governed by the Board of Education (the Board). A principal function of the Board is to adopt Bylaws and Policies that are reasonable and necessary to guide present and future Board and School District decision making and operations. The adoption, amendment or repeal of Bylaws or Policies requires the vote of a majority of the Board members elected and serving.

Bylaws and Policies supplement the wide body of federal and state statutory and regulatory law that applies to public school districts in the State of Michigan. Federal and state law supersede these Bylaws and Policies, to the extent of any inconsistency. The Board has determined that it is not reasonable or necessary to attempt to replicate federal or Michigan statutes or guidelines in these Bylaws and Policies.

0003 The Superintendent of Schools

The Board will employ a Superintendent of Schools in conformity with the RSC and other applicable laws. The Superintendent will serve as the School District's chief administrator and is responsible for the development and implementation of Administrative Guidelines that give operational effect to Board Policies. Administrative Guidelines will be consistent with these Bylaws and Policies and, except as otherwise agreed by the Board, will not be effective for a period of one month from the date they are provided to the Board. The Board may, but is not required to, formally approve Administrative Guidelines. A reference to the Superintendent in these Bylaws and Policies (and in any Administrative Guidelines that may be promulgated) means the Superintendent or his/her designee, unless otherwise expressly stated.

The Board has adopted these Bylaws to define the manner in which the Board meets, operates and conducts its business. Bylaws are intended to provide for the Board's own internal governance, providing the basic framework for Board operations.

1001 Organization and Functioning of the Board

Composition The Board of Education is comprised of seven (7) members, elected or appointed in accordance with the RSC and the Michigan Election Law.

Term of Office The term of office of each member is four years, unless otherwise required by law..

Oath of Office Newly elected, reelected and appointed members of the Board will take the required oath of office before being seated.

Vacancies In the event of a vacancy on the Board, the Board may appoint an eligible person to fill the position consistent with Michigan law.

Duties and Responsibilities of Board Members Board members are elected to serve the interests of the School District and the entire school community. These interests may not be subordinated to any partisan principle, group or interest. Board members are expected to be and remain informed about issues that may come before the Board for decision. Regular attendance at Board meetings is necessary to fulfill the obligations of a Board member.

Role of Individual Board Members The Board acts as a whole, and only at properly convened Board meetings. An individual Board member lacks independent authority and may not act for or on behalf of the Board unless he/she has been specifically delegated authority by the Board to act in a particular instance.

Board Member Code of Ethics

As members of the Board of Education, Board members will strive to improve public education and to that end they will:

- A. attend all regularly scheduled Board meetings insofar as possible, and become informed concerning the issues to be considered at those meetings;
- B. recognize that they should endeavor to make policy decisions only after full discussion at publicly held Board meetings;
- C. render all decisions based on the available facts and independent judgment, and refuse to surrender that judgment to individuals or special interest groups;
- D. encourage the free expression of opinion by all Board members, and seek systematic communications between the Board and students, staff, and all elements of the community;
- E. work with the other Board members to establish effective Board policies and to delegate authority for the administration of the District to the Superintendent;
- F. communicate to other Board members and the Superintendent expressions of public reaction to Board policies and school programs;

- G. inform themselves about current educational issues by individual study and through participation in programs providing needed information, such as those sponsored by the State and National School Boards Associations;
- H. support the employment of those persons best qualified to serve as school staff, and insist on a regular and impartial evaluation of all staff;
- I. avoid being placed in a position of conflict of interest, and refrain from using their Board positions for personal partisan gain;
- J. take no private action that will compromise the Board or administration, and respect the confidentiality of information that is privileged under applicable law;
- K. remember always that their first and greatest concern must be for the educational welfare of the students attending the public schools.

Confidentiality Board members will receive information that is not available to the general public. This includes information that is received during a closed session of the Board. In order for the proper functioning of the Board, an individual Board member will not share confidential information without the prior authorization of the Board or as may be required by law.

New Members Board service requires considerable preparation and study. New Board members will complete: new Board member orientation provided by the Superintendent; and, within two years of their first Board meeting, Board Member Certification through the Michigan Association of School Boards (MASB).

Committees The Board may create various committees to gather information for the Board. Committee members will be appointed by the Board President. A committee will not consist of more than three (3) Board members.

Election of Officers of the Board The President, Vice President, Treasurer and Secretary of the Board will be elected at the Board's annual organizational meeting. The vote of a majority of the Board members elected and serving will be necessary for election to these offices. The elected officers will hold office for one year, and continue in office until their successors are chosen and take office. Board officers are eligible for reelection to their office.

President The President of the Board will preside at all meetings of the Board and conduct meetings in the manner prescribed by these Bylaws. The President will prepare the agenda for Board meetings in consultation with the Superintendent and may perform such other tasks as are reasonably necessary to facilitate Board meetings. The President will appoint members to such committees as may be established by the Board from time-to-time.

The President, or his/her designee, functions as the official spokesperson for the Board. The President will be the official recipient of correspondence directed to the Board and will provide copies of School District related correspondence to all other Board members and, in his/her discretion, to the Superintendent. Board members who receive School District related correspondence that was not addressed to the President will promptly provide a copy to the President.

The President will sign all papers and documents required by law or otherwise authorized by action of the Board.

The President, on behalf of the Board, is authorized to consult with the Superintendent and/or School District legal counsel prior to presentation of an issue to the full Board.

Vice-President The Vice-President of the Board will have the powers and duties of the President during the temporary absence or disability of the President. The Vice-President will also have such other powers and duties as the Board may from time to time determine.

Treasurer The Treasurer of the Board will sign all School District documents required by law or otherwise authorized by action of the Board and perform other duties required by law and/or assigned by the Board.

Secretary The Secretary of the Board will be responsible for taking and keeping the Board minutes in conformity with applicable legal requirements and performing such other duties as the Board may from time to time determine.

Vacancies in Officer Positions In the event of a vacancy in a Board office, the Board will elect a successor to serve for the balance of the term.

Removal from Office The Board may remove a person from an elected Board office by a majority vote of the serving members. Removal from an office does not constitute removal from the Board.

Compensation Board members will be paid a stipend of \$30.00 for attendance at each meeting of the Board, including meetings of any Board-created committee to which the member has been appointed. The Board President, Treasurer and Secretary will be paid an additional stipend of \$30.00 per month.

Reimbursement of Expenses In addition to compensation for meeting attendance, Board members will be reimbursed for actual and necessary expenses incurred in the discharge of their official duties, as well as for attending Board approved activities and functions. Board members are expected to exercise good judgment, and ensure that expenditures incurred are reasonable, necessary, and in the best interest of the School District. Board members will not be reimbursed for entertainment expenses or the purchase of alcoholic beverages.

Indemnification The School District will indemnify the Board and individual Board members to the extent permitted by law. The School District will also purchase and keep in effect insurance policies for the defense and indemnification of the Board and individual Board members.

Discipline and Removal By a majority vote, the Board may censure an individual Board member or members for violating federal or Michigan law, these Bylaws or Board policy, or otherwise acting in a manner inconsistent with the office of a Board member. By a majority vote, the Board may petition the Governor to remove an individual Board member or members from the Board for any reason permitted by law.

Professional Services The Board may select and appoint qualified individuals or firms to provide professional services to the District for legal, architectural, and auditing/accounting services. In making such selections, the Board will, minimally, consider certifications, licenses, training and experience.

1002 Meetings of the Board of Education

Michigan Open Meetings Act The Michigan Open Meetings Act (OMA), MCL 15.261 *et seq.*, governs many aspects of Board of Education meetings. These Bylaws supplement the requirements of the OMA.

Annual Organizational Meeting An organizational meeting will be held annually during the month of January. The business of the meeting will include:

- the election of Board officers; the establishment of a schedule of regular Board meetings for the year; and,
- such other business as the Board may choose to address.

Regular Meetings Regular meetings of the Board will be held in accordance with the schedule established by the Board at the organizational meeting. The agenda for each regular meeting will be developed by the President of the Board in consultation with the Superintendent.

Special Meetings Special meetings of the Board may be called by the President or any three (3) Board members by providing not less than 24 hours notice to all Board members. The notice to Board members and the public shall be consistent in manner and form with the requirements of the OMA.

Meeting Procedures

Quorum. Unless otherwise required or permitted by law, a majority of the serving members will constitute a quorum.

Voting. Unless otherwise required or permitted by law, the affirmative vote of a majority of the serving Board members is required to exercise the Board's authority.

Guidelines for Public Participation at Board Meetings. The Board will establish guidelines concerning public participation at Board meetings to permit fair and orderly public participation at each public meeting. The guidelines will include, but not be limited to:

Requiring each person who wishes to address the Board to complete a sign in sheet or comment card including the person's name, address, telephone number and topic.

Requiring each person who wishes to address the Board to be recognized by the presiding officer and preface his or her comments by stating his or her name, address and, if applicable, group affiliation.

Prohibiting the same person from addressing the same topic more than once at a meeting.

Requiring each person to address the Board or the Board's presiding officer and not individual Board members, School District personnel or other individuals.

Prohibiting individual complaints against persons who have duly requested a closed session, as permitted by the OMA. Persons with individual complaints or complaints about specific incidents are encouraged to handle them through proper administrative channels and may contact the Superintendent for assistance.

Limiting the total time devoted to public participation to 30 minutes at each meeting and the total time for each person's comments to five minutes, except when the number of speakers exceeds the 30 minute limit (in which case the presiding officer will limit each person's comments to three minutes). To facilitate the disposition of Board business, the presiding officer may end or limit the total time for public participation.

Prohibiting video or tape recording that obstructs the lines of sight between the Board and the audience or prevents full and unimpeded participation in the Board meeting or otherwise distracts Board or audience members.

The presiding officer may enforce these guidelines by, among other things:

Prohibiting public comments that are frivolous, repetitive or harassing.

Interrupting, warning or terminating comments that are too lengthy, personally directed, abusive, obscene or irrelevant;

Requesting a person leave the meeting when his or her behavior interferes with the orderly conduct of the meeting;

Requesting the assistance of law enforcement to remove a disorderly person;

Call for a recess or adjournment when the lack of public decorum interferes with the orderly conduct of the meeting.

Waive these guidelines with the approval of a majority of the Board

Rules of Order. Disagreements concerning the rules of order for a meeting will be resolved according to the latest edition of *Robert's Rules of Order*. The Board may, however, suspend the Rules for a particular meeting or vote by action of a two-thirds (2/3) vote of those members present.

Suspension or Waiver of the Bylaws. Bylaws may be suspended by general consent or a two-thirds (2/3) vote of the Board members present at a properly constituted meeting. The suspension will apply to a particular instance and matter only and will not otherwise be applicable to subsequent actions or events.

1003 Adoption or Amendment of Bylaws and Policies

The Board will adopt or amend Bylaws and Policies after readings at two separate Board meetings. The Board may, by a majority vote of members elected and serving, waive a first reading.

Resident Students Michigan law establishes which students have the right to attend school in the School District. The Superintendent will develop and implement guidelines for the enrollment of resident students and their assignment to School District schools, facilities and programs. The Superintendent may also develop and implement guidelines for intra-district open enrollment.

Nonresident Students Nonresident students may be permitted to enroll in the School District, as described below.

Schools of Choice. The Board may choose to permit the enrollment of nonresident students pursuant to a schools of choice program. If such a program is adopted, the Superintendent will develop and implement guidelines for the enrollment of nonresident schools of choice students. Students duly enrolled pursuant to a schools of choice program will, thereafter, be considered School District students for all curricular and extracurricular purposes.

Tuition Students. The Board may choose to permit the enrollment of nonresident students pursuant to a tuition program. If a tuition program is adopted, the Superintendent will develop and implement guidelines for the enrollment of nonresident tuition students. Students duly enrolled through a tuition program will, thereafter, be considered School District students for all curricular and extracurricular purposes.

Foreign Exchange Students. The Superintendent may develop and implement guidelines for the enrollment of foreign exchange students.

Homeless Students. The School District will comply with applicable legal requirements concerning the enrollment of students defined as homeless under federal law. The Superintendent will appoint a designee to serve as the District's liaison with homeless students and their parents or guardians. The liaison will coordinate and collaborate with state and local officials, as necessary. Students duly enrolled as homeless students will, thereafter, be considered School District students for all curricular and extracurricular purposes.

Children of Non-resident Employees. A child of a non-resident employee of the School District may be permitted to enroll in the School District without the payment of tuition. Once enrolled, such a student will be permitted to continue to attend the School District through graduation or receipt of a certificate of completion. This policy does not, however, bar the long-term suspension or expulsion of a student for a violation of the Student Code of Conduct.

Shared Time Instruction Under certain circumstances, students enrolled in non-public schools located within the geographic boundaries of the School District, as well as eligible students who are being home-schooled, are permitted to participate in non-core elective classes offered by the School District.

The core function of the School District is to educate students to prepare them to become productive and responsible citizens and adults. All other policies and considerations are secondary to this objective.

Curriculum The Superintendent, in consultation with selected School District personnel, is responsible for developing and implementing a legally compliant School District-wide curriculum. The curriculum is to be designed to further the educational growth of School District students and prepare students for post-

secondary education and employment opportunities. All School District personnel are responsible for faithfully and effectively implementing the curriculum in their respective buildings and classrooms.

Assessments The Superintendent, in consultation with selected School District personnel, is responsible for developing and implementing legally compliant student assessments. These assessments are to be designed to accurately measure the degree to which students of the School District are progressing in the School District's curriculum, in general, and how each individual student is progressing within the curriculum.

The Superintendent, in consultation with selected School District personnel, is also responsible for developing and implementing an assessment reporting system. The purposes of the reporting system include informing the Board, School District staff, parents,¹ and the community, at large, about student progress within the School District's curriculum, in general; informing the Board, School District staff, parents and the community at large about student progress relative to their peers in other school districts and communities; and, notifying parents and students of the particular student's individual progress in the School District's curriculum. All School District personnel are responsible for faithfully and effectively administering the School District's assessments and following the prescribed system of assessment reporting.

Progress Reports and Grades The Superintendent, in consultation with selected School District personnel, is responsible for developing and implementing a system of legally compliant periodic progress reporting and grading that accurately reflects the degree to which students are progressing within the School District's curriculum, in general, and relative to their peers, as well as how each individual student is progressing. All School District personnel are responsible for faithfully and effectively implementing the School District's progress reporting and grading system.

Placement The Superintendent and building administrators, in consultation with parents, are responsible for placing students in schools, grades and courses consistent with the School District's core function of preparing students to become productive and responsible citizens and adults. Where agreement cannot be reached, following consultation, placement decisions may be made notwithstanding parental objection.

Graduation Requirements In order to graduate and receive a high school diploma from the School District, a student must successfully complete all coursework required by law, all credits, coursework and assessments required by the School District and all other requirements that may be established and published from time to time by the Board.

2003 Education Records

Generally The Superintendent will develop and implement legally compliant guidelines covering the creation, maintenance, preservation and confidentiality of student records. The Superintendent will notify parents annually of their rights with respect to student records and related matters, as required by the Family Education Rights and Privacy Act (FERPA) and Pupil Privacy Rights Amendment (PPRA).

Directory Information The Board designates the following student record information as *directory information*:

- a student's name, address and telephone number;
- a student's photograph;

¹The word "parents," when used in these policies, includes legal guardians and, where required by law, those acting in the place of parents.

- a student's birth date and place of birth;
- a student's participation in School District related programs and extracurricular activities;
- a student's academic awards and honors;
- a student's height and weight, if a member of an athletic team;
- a student's honors and awards; and
- a student's dates of attendance and date of graduation.

Such information may be released by the School District, upon request, unless a parent or adult student has made timely objection, in writing, in accordance with FERPA.

Student Surveys Parents may inspect all materials used for any student survey, analysis or evaluation conducted by the School District in connection with a program that is funded by the United States Department of Education. The School District will not, without the consent of the parents of a student, require the student to participate in such a survey, analysis or evaluation that reveals or is intended to reveal information concerning the student's or the student's parents':

- political or religious affiliations, beliefs or practices;
- mental or psychological problems;
- sexual behavior or attitudes;
- illegal, anti-social, self-incriminating or demeaning behavior;
- critical appraisals of other individuals with whom the student or the student's parents have close family relationships;
- legally recognized privileged or analogous relationships, such as those with lawyers, physicians and ministers;
- income, other than when required by law to determine eligibility for programs or financial assistance.

2004 Extracurricular Activities

The Board strongly encourages the participation of School District students in extracurricular activities. Such activities are intended to supplement the School District's curriculum and provide opportunities for student enrichment. While important, it must be emphasized that participation in extracurricular activities is a privilege; not a right.

Athletics The Superintendent, in consultation with the Board and selected School District personnel, will develop and administer a robust program of interscholastic athletics. The athletic program must, at all times, adhere to the principle that participants are students first and athletes second.

School District Clubs and Other Activities The Superintendent, in consultation with the Board and selected School District personnel, will develop and administer a program of curricular and extracurricular student clubs and other activities.

School District secondary students may also initiate clubs and other activities to be held on School District premises, subject to such rules and guidelines as may be established by the Board, the Superintendent or District personnel consistent with the federal Equal Access Act and its Michigan equivalent. The School District will not discriminate among such student-initiated clubs and activities based on the religious, political or philosophical content of their meetings, provided the following conditions are met:

- Club meetings and events may not take place during instructional time.
- Club meetings and events must, in fact, be student initiated and student participation must be voluntary.
- Club meetings and events will not be sponsored by the School District or School District employees or agents.
- School District employees and agents may be present in only a supervisory capacity. They may not otherwise participate in club meetings and events.
- Persons not affiliated with the School District may not direct, conduct, control or regularly attend club meetings and events.
- Club meetings and events must not materially or substantially interfere with the orderly conduct of School District educational programs or activities.

2005 Communication

Closed Forum The School District is a closed forum, dedicated to the education of School District students based on the School District's curriculum. Where deemed necessary, the School District reserves the right to prohibit communication by students or others while observing all applicable legal requirements.

Student Publications The School District supports and encourages student publications that are part of the School District's curriculum, including school newspapers, yearbooks and similar publications.

Distribution and Posting of Materials The posting and distribution of materials on School District premises is prohibited, unless the materials are generated by the School District itself or provides factual information about School District academic or extracurricular activities. All postings and materials to be distributed require the prior written approval of the building administrator or his/her designee.

The Superintendent, in consultation with building administrators, may develop and implement guidelines for the posting and distribution of other information. In all cases, the School District prohibits the posting or distribution of literature that:

- Is libelous, defamatory, obscene, lewd, vulgar, or profane;
- Violates federal, state or local laws;
- Advocates the use or availability of any substance or material that may reasonably be believed to constitute a direct and substantial danger to the health or welfare of students, such as tobacco, alcohol or illegal drugs;
- Incites violence;
- Interferes with or advocates interference with the rights of any individual or the orderly operation of the schools and their programs;

- Is primarily of a commercial nature, including but not limited to material that primarily seeks to advertise products or services; or
- The primary purpose of which is fundraising, except as approved in advance by the Superintendent.

2006

Behavior

Introduction The Board of Education is committed to providing a school environment in which staff may deliver and students may receive educational services without disruption or interference. Expectations for students are based on principles of civility, mutual respect, and otherwise doing what is necessary to be a functioning member of a school community. These expectations apply to conduct on School District premises, while en route to and from school, while in attendance at school functions, as well as when off-campus, to the extent the off-campus behavior is likely to or does substantially disrupt District academic or extracurricular activities or programs.

Student Code of Conduct The Superintendent, in consultation with selected School District personnel, will develop and implement a legally compliant Student Code of Conduct. The Student Code of Conduct will apply to student behavior on school premises, while en route to and from school, at School District related events, as well as to off-campus behavior, to the extent the behavior is likely to or does substantially disrupt District academic or extracurricular activities or programs.

- Principals are delegated the authority to suspend a student from school for misconduct for a period not to exceed ten (10) school days. The Student Code of Conduct to be developed by the Superintendent is to include the due process protections that will apply in connection with such suspensions.
- The Student Code of Conduct will include a procedure for considering and disposing of recommendations by the administration for long term suspensions (in excess of 10 school days) and expulsions. The procedure will be consistent with this policy.

Long Term Suspensions and Expulsions. The Board of Education delegates to the Superintendent the authority issue long term suspensions up to 45 school days, pursuant to legally compliant procedures set forth in the Student Code of Conduct. The Superintendent's decision on such suspensions will be final. The Board of Education delegates to a Disciplinary Panel the authority to issue long term suspensions, in excess of 45 school days and expulsions, pursuant to legally compliant procedures set forth in the Student Code of Conduct. The Disciplinary Panel will consist of two members of the Board of Education, a central office administrator (who will serve as the Panel chairperson), one building administrator and one teacher. The Disciplinary Panel's decisions on such suspensions and expulsions will be final.

The Superintendent may also develop and implement an Athletic and Extracurricular Code of Conduct. The Code will be developed on the foundational basis that participation in athletics and extracurricular activities is a privilege; not a right.

The Superintendent will post the School District's Student Code of Conduct and Athletic and Extracurricular Code of Conduct on the School District's web site and take other reasonable measures to assure that students and parents are aware of their existence.

Other Student Behavior Michigan law requires that the Board adopt policies concerning bullying, "verbal assault" and locker searches. The Board adopts the following policies, which the Superintendent is to incorporate into the Student Code of Conduct.

Student Bullying

Policy Statement

The Board recognizes that bullying and cyberbullying significantly interfere with the learning process. Through this Policy, the Board prohibits bullying "at school," as defined below, as well as off-campus conduct that is likely lead to a material or substantial disruption of the school learning environment for one or more students.

This Policy is intended to protect *all* students from bullying, including cyberbullying, regardless of the subject matter or motivation for the behavior. The Board, through this Policy, also prohibits retaliation or false accusations against a target of bullying, as well as a witness or another person with reliable information about an act of bullying. The identity of an individual who reports an act of bullying shall remain confidential.

In order that this Policy be properly implemented, the Board directs that:

Implementation

Responsible School Official. The Principal of each school building is primarily responsible for implementing this Policy for the school to which he or she is assigned.

Publication. The Superintendent shall revise the District's Student Code of Conduct, consistent with this Policy, to specifically prohibit bullying and cyberbullying, as defined below. The Superintendent is directed to post this Policy on the District's website.

Reporting. The Superintendent shall report to the Board of Education, on an annual basis, all verified incidents of bullying, and the resulting consequences that were imposed.

Administrative Guidelines. The Superintendent shall promulgate such administrative guidelines as he/she may deem necessary for the implementation of this Policy. The guidelines shall include all of the following:

The Board will search for and employ persons of the highest character who have the skills and other qualifications necessary to meet staffing requirements.

Board policies apply to all School District employees, including personnel who are covered by a collective bargaining agreement. In the event that a Board policy conflicts with an enforceable provision of a collective bargaining agreement, the bargaining agreement will control the particular matter for employees who are within the coverage of that agreement. Any provision of a collective bargaining agreement that purports to cover a prohibited subject to bargaining is not enforceable.

- No Board member or employee shall participate in any personnel action, including a recommendation for appointment, employment, promotion or evaluation, concerning an applicant or employee to whom she or he is related.
- No Board member or employee may directly supervise or evaluate an employee to whom that person is related. If a person is hired or transferred into a position the person will immediately report that fact to the Superintendent, who will consult with the Board of Education concerning the proper disposition of the matter.
- Whenever one relative is promoted or transferred to a position that would result in a violation of this policy, the conflict will be resolved by transferring one of the related employees to another comparable position. The employee who is to be transferred will be designated by the Superintendent and must meet all established certifications and qualifications of the position to which transferred.

This policy should not, except as expressly provided, be interpreted to prohibit the employment of relatives of Board members or relatives of School District employees.

Accordingly, the School District will comply with state law and require that any individual working in a school building, whether as an employee or working regularly and continuously under contract, submits to a criminal history and background check by the department of state police. If an individual has been convicted of a listed offense, as defined by Michigan law, the School District will not employ the individual. All personnel decisions will be made based on the following factors, in order of priority:

- individual performance;
- significant, relevant accomplishments and contributions;
- relevant special training.

The focus of personnel decisions will be the retention of effective teachers. Length of service or tenure status will not be a consideration unless the factors described above are found to be equal, and, then, only at the discretion of the Superintendent.

No teacher who has received a rating of ineffective on his/her last year-end evaluation will be given any preference that would result in that teacher being retained over a teacher who received a performance rating other than ineffective.

The Superintendent will develop and implement guidelines or practices necessary to ensure implementation of this policy in accordance with Michigan law.

Assignment and Transfer The Board of Education believes that the appropriate placement of qualified and competent staff is essential to the successful functioning of the District. The Superintendent will be responsible for the proper assignment and transfer of all professional staff members and, in doing so, will attempt to optimize meeting the academic needs of the District's students.

If the Superintendent requires an employee to submit to a medical examination, all costs will be borne by the School District. The employee will be required to sign a release authorizing the physician to submit a copy of the report of the examination directly to the Superintendent. A copy of the physician's report will be maintained in a separate, confidential personnel file.

To that end, the School District will use a rigorous, transparent and fair evaluation system for all teachers and administrators. This system will comply with Michigan law and include annual year-end evaluations for all teachers and administrators, unless otherwise permitted by Michigan law.

The evaluation system is intended to be used to improve the performance of all teachers and administrators and encourage professional growth. That teacher will be evaluated mid-year during the next school year, in addition to receiving a year-end evaluation. If the teacher continues to be found ineffective after a second year, the School District will act to discharge the teacher, either through termination (if probationary) or the filing of tenure charges (if tenured), unless special circumstances are found to exist.

Discipline and Discharge This discipline and discharge policy applies to all School District employees. Furthermore, the employment of a probationary employee, including a probationary teacher, may be terminated at any time, for any reason that is not in violation of state or federal law. Where this policy conflicts with an individual contract of employment or an enforceable provision of a collective bargaining agreement, the applicable contract or agreement will supersede this policy.

The Board believes in maintaining a work environment that allows employees to be successful in providing an education to students of the School District. In return, employees are required to meet the highest standards of personal integrity, professionalism and performance. Employees whose conduct or performance is inconsistent with the School District's expectations are subject to corrective and/or disciplinary action.
